Brainwashing Cure Leads to Psychosis Breakthrough

The National Caucus of Labor Committees has announced that through the final de-programming of Christopher White, victim of the most vicious and perverse brainwashing procedures, Lyn Marcus and the Labor Committees have now made a major advance in opening up a whole new area of psychology — the solution to psychosis.

Christopher White, by regaining his health, will now be able to play a leading role in making these methods known and thereby providing an immediate cure for all victims of KGB and CIA brainwashing.

We call upon all psychiatrists, psychologists, and professionals in the field of psychology and psychological warfare to consult with the Labor Committees so that together we can actually develop an immediate program for public consumption of this new major development.

LABOR COMMITTEE EXPOSES PRESS COVER-UP OF CIA POLICE MURDER ATTEMPTS

NEW YORK, Jan. 5 — A clear pattern of press collusion in the scandalous brainwashing of British Labour Committee member Christopher White has now emerged. CIA operative Andrew Kopkind has been authoritatively reported to have issued orders to radio stations in the Boston area to kill all coverage of the sensational events involving White and other Labor Committee members. Kopkind's accomplice in this cover-up, one Danny Schechter, accidentally let slip the fact that Kopkind wanted the lid kept on the story. Schechter proposed that NCLC spokesmen could appear on a Kopkind-monitored weekly program in two weeks, or exactly when White's program indicates that assassination attempts were to be carried out. An article in Kopkind's mouthpiece, **The Real Paper**, had previously threatened Marcus's life.

In related events, in New York City press blackout of the story has been complete except for coverage of a CIA-planted story accusing the NCLC of attempted kidnapping. This story, entirely concocted with the aid of Detective Finnegan's CIA-run Red Squad, was exclusively intended to prepare the way for the "legalized" murder of Christopher White, his wife Carol, and Lyn Marcus, National Chairman of the National Caucus of Labor Committees.

Outside of this intended cover-up of police plans to seize the principals involved, all other news media have been ordered to keep the lid on. In at least three related cases, reporters who previously expressed great interest and excitement in the extraordinary developments of the case, have now absolutely refused to follow through on continued coverage. New York **Post** Jay Levin at first recommended in-depth follow-up of the story, but then became suddenly unavailable despite the continuing major legal and criminal events involved. NBC national news assignment editor Marvin Lorber specifically requested an exclusive interview, but when called back to specify time and place at his convenience, suddenly announced that no crew was available. New York **Daily News** reporter McFarland at first requested immediate access to pertinent information; one-half hour later, he suddenly became too involved in meeting a deadline to review the data rushed to him by courier. New York **Times** reporters have been so hysterical that in one incident a **New Solidarity** spokesman distributing our latest release at the **Times'** office was physically assaulted.

Since the CIA, the NYPD and the FBI are in a state of insurrection against the United States government and Constitution, and since the major national and metropolitan media have consistently refused to investigate or publish the facts of the case, we are proceeding immediately with an emergency injunction to insure that the NYPD, the FBI and the CIA not be permitted to arrest or detain any Labor Committee member in order to carry out this vicious operation.
